### Pay of Congressmen.

THIRTY-FOUR DOLLARS A DAY for three months;—hours of labor, from two to half a dozen daily—but absent *when* you please, and as *long* as you please! Reader, have you noticed any such situations offered by advertisement, in the daily papers? Probably not.

The pay of members of Congress, under the act of 1856, will be fully at the above rate for the next session, which begins on Monday the 6th of December, 1858, and ends on the 3d of March, 1859. There is not one single member—whether Senator or Representative—of the whole three hundred, who will honestly earn any such wages, nor the half of it, nor the quarter of it; and this fact, every man of them knows perfectly well. On what decent grounds then, and with what sort of honesty, can Congressmen thrust their hands into the people's pockets at this rate? but it should be borne in mind that every dollar in the national treasury comes out of the pockets and earnings of the people.

Congressmen are paid wages for *Sundays* as well as week days, and at the same enormous rates, though they are not expected to work on Sunday any more than other folks. Thirty-four dollars for one Sunday's rest!—and this Sunday pay repeated twelve or thirteen times in the course of the winter! making in the aggregate, *for Sundays alone*, more money than many industrious, faithful, and hard working men receive individually, for a whole year's services! Out upon such a monstrous, unreasonable, and wholly outragous inequality!

Do the "honorable gentlemen," who are sent to Washington as the people's representatives, compose their consciences in this matter by the reflection that their duties are such as to require extraordinary talents, learning and wisdom? that the cost of subsistence and the compensation accorded to professional labor are much higher now than formerly? and that they did not themselves, at least not *all* of them, aid in establishing their present rate of wages? The honorable gentlemen are respectfully but confidently assured that there excuses will not answer.

The average wisdom and talents of Congressmen is not one whit higher or better than that of the clergy of the country, if indeed it is not decidedly inferior—yet the clergy do not receive an average of one-fifth so much pay as the members of Congress, while their services are worth many times more. The cost of subsistence and the wages of professional labor, are indeed somewhat higher than formerly, but not high enough to justify the payment of one-half the sum now received by law makers at the national capital. And our readers, at least, are well aware that Congressmen, with or without the assent of the President, have the fixing of their own compensation in their own hands. This is a most shameful anomaly in our governmental system, and ought to be reformed.

It is confidently stated that the public revenues for the past year will only about one-half defray the government expenses. The balance—being some forty or fifty millions—must be borrowed; indeed, it is mainly borrowed already. Is not this a pretty time for Congressmen to be thrusting their arms into the Treasury up to the shoulder?—to be taking THIRTY-FOUR DOLLARS A DAY for services, a large portion of which are not only of no possible use, but are often a lasting disgrace and damage to the People!

### Court of Justices July 2d.

State vs. James E. Luck, for stealing a ham, plead guilty. Fined $20 and costs. Committed.

A TEAM OF PIGS—A MORMON MOTIVE POWER.—Gov. Cumming testifies to having observed a wagon, on the road from Salt Lake City to Provo, which was drawn by pigs harnessed to the tongue by an ingenious combination of straps and cords. In it was seated a fat man who excited his team even into a trot, by the aid of a black-snake whip. I have seen a hand-cart drawn by a cow, and an old two-wheeled baker's cart, painted red, between the narrow shafts of which was fastened a horse so very fat and short that his breadth must have equalled his length from the fore-shoulders to the tail. In these vehicles were packed mothers and children, and all the household valuables, in the same manner as an Indian conveys his ale—papooses, lodge-skins, buffalo robes and dried meat—on the lodge poles dragged by the pony which is to fill his spring. The confidence of the circling of most of these people gives evidence of the truth of the efficiency of all kinds of cotton and woollens in the Territory.

Capt. Samuel Endicott, of Beverly, Mass., a few days ago, dug up in his garden, a remarkably well preserved and bright specimen of the old "Pine Tree Shilling." On one side is the Pine Tree, in the centre, surrounded by a double ring, with the inscription "MASATHVSETS IN;" and on the other, in the centre, "1652—XII," and, within the rings, "NEW ENGLAND.—AN. DO."

The Bostonians are raising a fund of $ 0,000 to build a female medical college.

## LOCAL NEWS.

### Eighty-Second Anniversary of Independence.

The Eighty-second Anniversary of the Declaration of Independence occurs to-morrow. On Monday, appropriate services will take place in the Central Baptist church, Clark Street.

The Church will be opened at 9 o'clock in the morning, for the admission of ladies and the young. The services will commence precisely at 10 o'clock. The Address will be given by His Honor Mayor Cranston. Music by the Philharmonic Society, under the direction of Dr. Wood.—Devotional exercises by Rev. Dr. Jackson, and reading of the Declaration of Independence by Sheriff Lake. Mr. Graham will preside at the organ.

The following will be the order in Church.

Voluntary.
Prayer.
Grand Choral, Rest.
Reading of the Declaration of Independence.
Grand Chorus, Rossini.
Address.
Quartette and Chorus, Rossini.
Benediction
Per order of the Committee.

NEW YACHT FOR NEWPORT.—We perceive by the New York papers, that our public spirited fellow citizen Henry Bullow, Esq., has recently had constructed in that city a yacht of 30 tons, called the *Narragansett*. The new yacht was launched Wednesday, the 30th. Her *debut* was honored by several sister yachts and the shipping in the immediate vicinity, with salutes of guns and bunting. The crew will leave Newport on Monday evening to take charge of her, and she may be expected here about the 7th inst. We hope the little fleet in our own harbor will prepare to give her a suitable reception. The *Narragansett* is sloop rigged, with *keire rigging*, is built in the very best manner, of beautiful model, and her interior fittings are superb. She will come in the third class of yachts.

SEINING FISH.—The catching of fish by seine has become an item of considerable importance in the fishing business, and hundreds of tons, packed in ice, are annually shipped from this place and Fall River to New York. We are informed that it has been a source of wealth to at least one individual engaged in it here.

But while this business has operated to the profit of parties engaged in it, it has had the effect of thinning out the fish, and rendering fishing by hook and line less productive. Blue fish, tautaug and scup, once abounded in Narragansett Bay, and one gentleman informs us that whereas once he could go out on Conanicut Harbor and catch in a short time fish enough to halt till his boat, now he might fish there half a day without taking so much as a respectable "mess." And yet it is asserted by those engaged in the seining business, that their operations have no effect in thinning out the fish! As though the taking of five hundred barrels of scup from the water at one haul will not reduce the sum total of those remaining. But we presume the people must submit to this spoiling their sport on the principle that "the big fish *will* eat up the little ones!"

☞ If the day is fine Monday, as we have reason to expect, there will doubtless be some noise in town, as Young America, with a box of fire-crackers and full license, will not be likely to miss the occasion to make himself heard. People who have skittish horses or weak nerves, should keep them out of the streets.

☞ Steamer New Clifton, we perceive, will make two excursions to this place on Monday; one from Fall River, arriving about 9 o'clock, and another from South Kingston, arriving, probably, about 3 o'clock. She is chartered by the South Kingston people, and will visit Fort Adams.

☞ A gentleman remarked to us the other day, that he had heard his grand father tell that when he was a young man, Newport was ahead of New York in point of commerce; and that New Yorkers would often rally him on the probability of N. Y. someday getting ahead of Newport in that ticular.

☞ Another boat, the "James Buchanan," has been added to the fleet of pleasure boats plying to the Fort. The J. B., though not a new boat, has been furnished with a new mast and sail, and her commander rates states she will hold her own among the fleet.

☞ The cargo of lumber just landed from the schooner Fiderum for Swinburne, Peckham & Co., is the handsomest lot that has been brought to Newport this season, and worthy the attention of consumers in that article.

☞ Newport is filling up fast with visitors. Over three hundred landed here yesterday morning from the Metropolis; making rising six hundred that have arrived within the last three days.

☞ The appearance of Pelham Street is so much altered by the recent improvement in grade, &c., that it has been found necessary to place an extra light on the corner to prevent people mistaking the street.

☞ There will be an Union Prayer Meeting on the morning of the 5th, (Monday next) in the Central Church in Clark Street, at six o'clock, and will continue one hour. All are invited to attend without respect to denomination of churches.

☞ We shall publish, Monday, a list of vessels belonging to this port, with their registered tonnage. Those who wish copies of the paper containing the list, for preservation will please leave their orders previous to 12 o'clock, to-day.

☞ The new boilers on the old steam mill on Thames street were tested on Thursday, with a satisfactory result. We understand the mill will go into operation next week.

CHANGE OF TIME.—The time of the afternoon service at Trinity Church, has been changed from 3 o'clock to 5 1-2, commencing last Sabbath.

## CORRESPONDENCE.

NEW YORK, July 1, 1858.

MR. EDITOR:—The various channels of business, and so forth, which are ordinarily so full and busy hereabouts, are all dried up by the intense and well nigh intolerable heats of the last few days,—heats which I believe have not been equalled, in this latitude, since the summer of '54. On Monday and Tuesday, the range of the thermometer was fully up to 98 in the shade; since which, it has declined a fraction, but was fully up to 92 yesterday.

This roasting temperature has destroyed an extraordinary amount of human life—the deaths by sun-stroke and over-heating, down to last evening, being little if any short of *forty* in this city; and I think about one-third as many in the adjacent cities, on the Jersey and Long Island shores. On Tuesday alone, nineteen inquests were held on the bodies of those who had fallen victims to the blazing heat; and eight other similar cases were reported to the coroners before they had finished the nineteen.

The removal of Ex-President Monroe's remains from this city to Virginia takes place at the close of this week—the steamer Ericsson having been engaged for that purpose. A large military parade is to signalize the occasion.

The anniversary exercises of Columbia College took place at Niblo's on Tuesday, and were largely attended, in spite of the hot weather. Some ten or twelve orations were delivered by the graduating class—an address by President Charles King—25 degrees of A. B., and 16 of A. M., with a few of the complimentary sort, and five prizes for superior scholarship. Columbia College is an old favorite with New Yorkers—this being its 104th anniversary. Its location, formerly just west of the Park, between Barclay and Mowray streets, was sometime since changed to 48th street, between 4th and 5th avenues—3 1-2 miles from the City Hall.

One of the most inveterate nuisances hereabouts, is the bogus ticket business, whereat a good many rascals seem to thrive, as they persist in carrying it on, in spite of all the drawbacks interposed by Mayor Tieman and his special police force. Somehow or other the law does not seem to have got exactly adapted to the punishment of this new rascality. People coming here from a distance, with the purpose of a trip to Europe or California, are the principal victims. Not knowing exactly where to apply for passage, they fall into the hands of sharpers, who either over-charge them villainously for genuine passage tickets, or palm off upon them a sheer fraud in the shape of a ticket, the villains having neither any vessel of their own, nor any connection with those who have. When a person finds he has been swindled, he applies to the Mayor, whose police assistants generally find the swindler and get back the money for the victim; but the knave is invariably suffered to go scot-free, and of course is speedily at his old tricks again, when the same farce is repeated. I cannot see why these offences do not of necessity fall under the law against swindling—but nothing seems to be done with them in the way of punishment.

The massive iron columns of the new Tompkins Market, on 6th street and 3d avenue, are at length slowly rising to their places, on one of the solidest foundations that any building can boast in this country. The market promises to be a noble and ornamental structure—if it ever gets completed. It "makes haste slowly."

A party of "real Eye Injuns," from the Great West, variously said to be Sioux and Ojibways, (probably the latter,) have been here for a few days, called on Mayor Tieman in their war costume, and been lionized about town almost as much as though they were so many Turkish admirals. One of the papers says that they were a war-whoop on their visit to the Mayor, which shook the City Hall"—but this does not seem to be well authenticated.

The total commitments to prison in Jersey City, in all the month of June, were 107—of which 75, or nearly three-fourths were *Irish*, natives of the U. S. 12 only. The proportion of Irish residents in Jersey city does not, however, seem to be much if any greater than in other places hereabouts.—But they are excessively addicted to intemperate, and all other Cases have to pay for it.

Nothwithstanding the extra warm weather, the last week's mortality in N. Y., was only 317. It will doubtless be much increased this week. RAMBLER.

SPANISH GOLDEN MIXTURE.
FOR FEMALES.

THIS elegant vegetable compound has been used by the Spanish ladies, for over a century, in all cases of female weakness, and for regulating the derangements of the female system and for improving the general health and beautifying the complexion. It is a warm and stimulating and tonic cordial; enriching and purifying the blood, quickening the circulation, imparting color to the lips and cheeks, brilliancy to the eyes, and a clearness and freshness to the complexion not attainable by any other means.

☞ As a Female Medicine it has no equal. It will remove female obstructions when all other remedies have failed, and a few doses taken for one week before the monthly period will prevent all obstructions *from any cause whatever.* This may seem incredible, but try it. If it fail in any case the price will be refunded. Sent to any part of the country. Price $5.00 per bottle

The following remedies are offered to the public as the best, most perfect, which medical science can afford. AYER'S CATHARTIC PILLS have been prepared with the utmost skill which the medical profession of this age possesses, and their effects show they have virtues which surpass any consideration controller exhibited to mankind. Other preparations do more or less good; but these cases, such dangerous complaints as to baffle ... usually ... to yield ... These ... disease ... which men have known before. By removing the obstructions of the ... organs and ... them into healthy action, they ... the fountains of life and vigor—health ... through the body, and the sick man is well again. The worst ... cases, and diseases only, for whom taken by one in health they produce not little effect. This is the perfection of medicine. It is ... disease, and to more. Tender children may take them with impunity. If they are sick they will cure them, if they are well they will do them no harm.

Give them to some patient who has been prostrated with bilious complaint; see his bent-up, tottering form straighten with strength again; see his long-lost appetite return; see his clammy features blossom into health. Give them to some sufferer whose foul blood has burst out in scrofula till his skin is covered with sores which run, fester, or lies in anguish. He has been drenched inside and out with every potion which ingenuity could suggest. Give them to him whose angry humors have planted rheumatism in his joints and bones; more him, and he screeches with pain; he too has been soaked through every muscle of his body with liniments and salves; give him these PILLS to purify his blood; they may not cure him, for, alas! there are cases which no mortal power can reach; but mark, he walks with crutches now, and now he walks alone; they have cured him.

Have you the least serious symptoms of these distempers, they are the easier cured. Jaundice, Costiveness, Headache, Sick Headache, Heartburn, Foul Stomach, Nausea, Pain in the Bowels, Flatulency, Loss of Appetite, King's Evil, Neuralgia, Gout, and kindred complaints all arise from the derangements which these PILLS rapidly cure. Take them perseveringly, and under the counsel of a good Physician if you can; if not, take them judiciously by such advice as we give you, and the distressing, dangerous diseases they cure, which afflict so many millions of the human race, are cast out like the devils of old—they must harrow in the bones and in the sea. Price 25 cents per box—5 boxes for $1.

Besides a large number of Ministers of the Gospel, Members of Congress, Philadelphia Lists, &c.

And also, the wonderful cures effected by Swaim's Panacea for many years made it an invaluable remedy. The Panacea does not contain mercury in any form, and being an innocent preparation, it may be given to the most infirm infant.

The retail price has been reduced to $1.25 per bottle, found, being three half pints) or three bottles for $5.

BEWARE OF IMPOSITION.

Swaim's Panacea is invariably put up in a highly ornamental style, with the following letters blown in the glass:—

"SWAIM'S—PANACEA—PHILADA."

and having the name of Jas. SWAIM stamped on the sealing wax, and written on the label covering the cork, and a new label for the side of the bottle, composed of geometric lathe work, comprising three different colors, which have been obtained for the exclusive use of the proprietor, by Draper & Co., Bank note engravers, of Phila. Four sizes of different patterns form the body of the work, and in the centre is a portrait of the late Wm. Swaim, separated from the borders by two circles of lathe work. The words "Swaim's Panacea," are engraved conspicuously on two curved strips, and a large semi-circular die forms the upper margin. The borders are composed of plain lathe work strips, outside of which is engraved, in small letters, the entry of the copyright.

Also, SWAIM'S VERMIFUGE.

A valuable Family Medicine, being highly approved remedy for all diseases arising from debility of the digestive organs, such as Worms, Cholera Morbus, Dysentery, Fever and Ague, Bleeding Piles, Sick Headache, &c. &c. See the Pamphlet (which may be had gratis) accompanying the Vermifuge.

Prepared only at SWAIM'S LABORATORY, AT THE OLD STAND, Seventh street, below Chesnut, Philadelphia, and sold by all the respectable Druggists in the United States.

Sold by the sole proprietor, DR. DUPONCO, No. 7, Chestnut street, Philadelphia, Pa.

DR. DOW will say nothing of his qualifications as a Physician and Surgeon, being a graduate of the University of Pennsylvania, a licentiate of the State Medical Society of N. Y., and for more than twelve years a practitioner of this city, during which time he has no doubt cured more of those difficult and chronic cases (such as nothing but practical experience can ensure success) than by other physicians in Boston.

By his late improved course of practice, Gonorrhœa, Gleet, Strictures, and other local affections of the urinary and genital organs, are cured in a very few days without mercury, regard to diet, or fear of exposure.

SECONDARY SYPHILIS, &c.

Scrofulous affections, ulcers in the throat or face, nodes and pains of the bones, copper or ... in the skin, and every impurity of the blood thoroughly and completely eradicated. Persons afflicted with any private complaint should call as early as possible and prevent ... the disease, as much pain and misery may be saved thereby.

TO YOUNG MEN.—Young men are troubled with seminal weakness, generally caused by a bad habit in youth, the effects of which are nocturnal emissions, pains and dizziness in the head, forgetfulness, sometimes a ringing in the ears, weak eyes, &c., terminating in consumption or insanity, if neglected, are speedily and permanently cured by Dr. Dow.

TO MIDDLE-AGED OR EVEN OLD MEN, whose procreative organs have become inactive or weakened by the excesses of any kind, but especially bad habits in youth, Dr. DOW would respectfully say that from the extensive practice which he has had in treating the above complaint for over fourteen years, he is enabled to guarantee a perfect cure in all cases that are restoration of those organs to their natural and healthy state. Hardly a day passes that he is not called upon to cure the above complaints, and he is happy to say that his course of treatment has invariably effected a speedy cure.

In view of all kinds of Exhilerating; Cordials, as they are of no use.

In the melancholy, the entire cessation of the nerves of the far-fetched and justly popular physician, Dr. Dow, that he can at all times be found at his office or ... is surpassed by none in curing all forms of ... disease however protracted, all treated ... recently adicted, is a consolation to his patients, and an honor to himself.—*Bald. Amer.*

All afflicted with private complaints, if possible, should consult Dr. Dow, whose medical education is not surpassed by any physician in the country. In his skill, honorable integrity, all may rely with safety, while most all of the medical practitioners are without honesty or responsibility, their pretensions being grounded in ignorance and assumption.—*Baltimore Argus.*

There are a great many young men whose cases have been very differently treated by other physicians, and have failed of a cure, and are now under the treatment of Dr. Dow, who would say to them, that they can rely with confidence on his skill and honor in their cases.

Dr. Dow consults with physicians as usual, on difficult chronic diseases. Charges reasonable.

TO FEMALES.
